AngelVision Appears on Inc Magazine List of Fastest Growing Companies for 6th Year

(Portland, OR) AngelVision Technologies, a leading internet marketing and multimedia company based in Portland, Oregon was recognized by Inc. Magazine as one of the fastest-growing, privately held companies in the United States for the sixth year in a row.

Inc. 5000 is an independent ranking of the nation's fastest growing private companies. The rating system is based on the percentage revenue growth comparing 2008 to 2011. Qualifying companies must be US-based, privately held, for profit, and independent as of December 31, 2011. AngelVision has now been part of the prestigious Inc. 5000 list since 2006.

Creating exceptional results requires out-of-the-box thinking and planning. Guided by Founder and CEO Michael Jingoian, AngelVision is run with a holistic management style that encourages ongoing feedback and input from all employees. "We try to remain "present" in managing our day-to-day activities. We don't always do things the way they are supposed to be done. We do things the way that makes sense," said Jingoian.

Jingoian credits their success from the ability to listen and ask the right questions of clients to elicit the key messages. They then produce content that is entertaining, informative and relevant. "Unlike politicians, our solutions work. This is not just true for our customers, but it's also true for us," said Jingoian. "Despite often throwing-away the rulebook, we've managed to be listed as one of the fastest growing companies in the US for the past six years. This is further confirmation that our strategy is working."

According to President Jeff Otis, AngelVision's continued growth is propelled by the company's ability to seek only the best opportunities for their customers. "Changes in technology have opened new opportunities, but the goal of delivering messages that help companies connect with their customers will never change," said Otis.

To date, AngelVision has been honored with more than 300 awards for sales, management, innovation and marketing ROI (return on investment).

AngelVision Technologies was founded in 2001. Over 2,500 companies worldwide rely on Impact Movies to strengthen their brands and boost profits. AngelVision provides other marketing communication services, including website development, whitepapers, webinars, PowerPoint presentations, and an article publishing service. More recently, they launched the BulkBookStore.com, CustomBooks.com and a mobile website development service based on patent-pending technology. To learn more, visit: www.AngelVisionTech.com.
